

BJØRN HANSEN

HOLOMORPH@GMAIL.COM

(425) 283-8374

16630 NE 92ND ST

REDMOND, WA 98052

EDUCATION

- **University of Washington**— Seattle, Washington, 2004 - 2007
Master of Science in Aeronautics and Astronautics
 - Depth Area of Study: Plasma Science
- **University of Victoria**—Victoria, British Columbia, 2000 - 2004
Bachelor of Science
 - Graduated with Distinction in June 2004 with a Major in Physics, and a Minor in Mathematics

EXPERIENCE

- **Microsoft, Xbox One Flight**—January 2014 - Present
Software Developer in Test
 - Develop feedback and registration apps for the Xbox One public preview program.
- **Microsoft, Xbox One Shell Core**—August 2010 - December 2013
Software Developer in Test
 - Developed automated tests and core automation technology for the Xbox One. Set up telemetry instrumentation for the overlay shell UI and wrote code to analyze the usage data.
 - Developed, as a self-initiated side project, a system for Beta users to report issues directly from the console and automatically gather supplemental data. This became the primary method for filing bugs leading up to, and post, release. Partnered with developers across the console team to enable them to include their data in this system.
- **Microsoft, Xbox 360 Foundation Test Tools**—August 2008 - August 2010
Software Developer in Test
 - Developed and maintained tools to enable PC-driven automated testing of the Xbox 360 shell, including a UI automation library and test harness. Successfully introduced unit testing and test driven development and pair programming into my team.
 - Developed automated tests for Kinect-related shell features during the lead-up to initial Kinect launch.
- **Volt at Microsoft, Xbox**—May 2008 - August 2008
Software Developer in Test
 - Worked as part of the Xbox Foundation Team on development of the “Test Case Scheduler” test harness, which runs automated test cases from Product Studio and auto-files bugs. Also worked with team members on the UI automation technology.
- **Volt at Microsoft, Natural Language Group**— August 2007 - May 2008
Software Developer in Test
 - Developed automated tests to verify functionality of proofing tools, primarily the speller engine.

- **University of Washington, RPPL**— Redmond, Washington, September 2004 - August, 2007
Research assistant
 - Worked on an Innovative Confinement Concept device for magnetically confined fusion plasmas at the Redmond Plasma Physics Laboratory. Primary projects included design, implementation, and documentation of the glow discharge system, heater control system, and the vacuum control system software.

SKILLS

- **Languages**
 - C++, C#, Python, CMD scripts, Java, Javascript, Perl, SQL
- **Software**
 - Development Environments: Visual Studio, Arduino, Eclipse, LabVIEW, Vim, Sublime
 - Debugging: Visual Studio Debugger, kd, gdb, pdb
 - Testing Frameworks: mstest, Nunit, xUnit, pyunit
 - Version Control: git, TFS, CVS, SubVersion, Bazaar, Source Depot
 - Mathematics: Matlab, SciPy, Pylab, Maxima, Mathematica
 - Graphics: Gimp, Inkscape, Blender
 - System Installation and Administration: Windows, Linux
- **Agile Development**
 - Test Driven Development
 - Pair Programming
 - Familiar with Scrum, Kanban
- Strong physics and mathematics background
- Enjoy working with a team
- Adept self-teacher

TECHNICAL ACCOMPLISHMENTS

- **PyWeek 10 Winner (Team Category)**—March 2010
Team Organizer
 - PyWeek is a Python programming challenge in which entrants write a game in one week, from scratch. “Oscilloscope” (<http://pyweek.org/e/calipygian/>) received the highest rating from other entrants.
- **Balder and Balder2D**—2001 - 2008
Project Administrator/Lead Programmer
 - Balder and Balder2D are open source zero gravity shooters, written primarily in C++ and Python. Worked with distributed contributors. (<http://balder.sourceforge.net>)

HOBBIES AND INTERESTS

- Soccer, game programming, 3D modeling, experimenting with, and contributing to, open source software, multitouch computing applications, cooking, pottery, drawing, playing games of all sorts (athletic, board, and computer based).
